Redefining Space

for
the

Way You Live.

Once you take a look at the projects in Wade Design & Construction, Inc.'s portfolio, it is easy to see how remodeling your home can lead you to renewed homeowner satisfaction. In 1999, Wade Design & Construction, Inc. was launched with the intention of working closely with homeowners, finding out what really matters to them and creating spaces that surpass their expectations - both functionally & aesthetically.

With over 25 years of total experience, Mike and Kristin Wade, owners of Wade Design & Construction have built a legacy of imaginative design and exceptional workmanship. And as their portfolio demonstrates, their work goes far beyond the ordinary. From bathroom and kitchen remodeling to simple warranty repairs, everything they do is personally handled with care and attention to every detail.

Mike and Kristin work with homeowners to carefully consider each step that goes into remodeling a home. A collaborative design process helps develop solutions that achieve design goals and make sense financially - without sacrificing homeowners' expectations. The process includes an initial meeting that

uncovers the homeowner's needs and desires. A detailed plan is then developed and presented to the homeowners. Together, the homeowners and the Wades evaluate the plan and incorporate any desired changes. Once this stage of the design process is complete, the homeowner is presented with the design and a detailed estimate.

CERTIFIED AGING IN PLACE SPECIALIST

And for those who want to add years of functionality to their home, Wade Design & Construction, Inc. is a Certified Aging in Place Specialist (CAPS) firm. Wade's design team can show you how to incorporate features that both look

amazing and accommodate current and future livability needs. Mike and Kristin can counsel homeowners on simple design changes that will function completely undetected now, but allow them to live independently and safely in future years, no matter what their age or physical ability.

Wade Design & Construction, Inc. is a class act. They have a passion for remodeling and a vision that goes beyond many homeowners' expectations. And Wade Design can redefine your home for the way you live!

For more information regarding resources for lighting & design services and persian rugs, please contact Wade Design.

Lots of natural light and an open concept make this a great gathering place for family and friends.
