It's EASY to be GREEN

Nonn's takes great pride in offering products that encourage environmental stewardship and sustainable initiatives. By offering these eco-friendly products, Nonn's is able to help you maintain a balance of social responsibility and high design.

IceStone®

Nonn's also is the sole distributor in Wisconsin of IceStone®. Made of 100% recycled glass in a cement matrix, IceStone® provides a very durable and resilient surface that is great for any design including countertops, flooring, and wall coverings. Offering a wide range of colors to match your décor, this products gives you the ability to be eco-friendly and at the forefront of high design.

SmartStrand®

By making an investment in Mohawk Floorscapes, Nonn's has committed to sustainable initiatives that make good environmental and business sense. By offering SmartStrand®, an easy maintenance carpet with exceptional wear and a long lasting resiliency, not only is this carpet smart, it is made of a renewably sourced polymer that contains ingredients made from corn sugar, replacing ingredients that were traditionally derived from petroleum.

Bamboo

If you are looking for that hardwood splendor, but want to be environmentally responsible, Bamboo is a noteworthy renewable resource that can replace itself in 5 to 7 years. The aesthetics of Bamboo are very distinctive and pleasing, but the properties of bamboo are what sells it. It is actually stonger then most hardwoods and therefore very resilient.
