This dramatic renovation converted a small dining room and cramped kitchen into an open style kitchen space, with a new foyer and powder room. The new foyer design with custom tile floor creates an inviting, warm entrance into the spacious kitchen area. Admire the beauty and design of the cherry cabinetry, granite countertops, butler's pantry and computer work area with built-in bookcases. The room's focal point, a center island snack bar with built-in cook top stove and stainless steel range hood, provides a beautiful place to enjoy casual meals or conversation with the cook.

Kitchen, Foyer & Powder Room Remodel
