Job description
and information:

Job Description

Twisted Floors is your go-to coating company, specializing in one-day installations. We use polyurea for our coatings as we've found it to be the most durable, reliable, and beautiful coating on the market. We are seeking an installer who is willing to learn and train others to complete a proper floor prep and coating installation. Please visit our Facebook Page to see some of our work.

Job Duties:

Work four to five days a week (Monday-Friday and the occasional Saturday)
Work with a crew of 2 to 3 installers depending on the size of the job.
Work with the customer to make sure we install floors to their satisfaction.
Ensure the floors are prepared properly for installation using best practices for grinding and clean installations.
Mixing product properly for installation.
Install base coat, colored flake layer, and top coat based on the selection.
Work with a team to maintain material and supply inventory.

Experience and Credentials:

1+ years of experience in the field of construction preferred.
Experience with hand tools and large equipment
High school diploma or GED preferred

Requirements:

Honest, trustworthy, teachable, and great work ethic
Ability to work in multiple locations in the southeastern WI, and Northern IL
Clean background, must pass background check
Drug free, must pass drug test
Valid Driver license, reliable transportation, and a clean driving record
Ability to lift/move 75-100 lbs

Allergen information:

Our environment includes exposure to concrete dust, epoxy, urethane, polyurethane, polyurea, polyaspartic, vinyl, and mica. We have protective equipment to help with this.

Compensation:

Starting at 20.00 an hour, Installers with experience \$25-\$35.00
